City Superintendent S. J. Ingram announces a short program will mark the beginning of the session. The public is cordially invited to attend the exercises and visit the school. Patrons and others will be received with warm welcome.

There will be no classes Monday, Labor Day, but regular classes will begin Tuesday morning. It is requested that all who plan attending will register Friday and begin classes Tuesday morning following.

### New Teachers

Two new members of faculty are noted. Miss Virginia Smith, of Vicksburg, Miss., will replace Mr. M. A. Phillips in high school. Mr. Phillips resigning last week to accept a local position of "responsibility" with a commercial house.

Miss Ruby King, of Inverness, Miss., fourth grade teacher fills the other vacancy.

Supt. Ingram says there is every reason to believe, backed by indication, this year's enrollment will exceed all previous sessions.

The school's new \$65,000 gym is completed and ready for occupancy and will be used to advantage, it was said.

## Amateur Show Tuesday Night at Gulf Theater Proved Unusual Success

The Gulf Theater at Waveland had another successful Amateur Night show Tuesday night of this week. The usual crowd packed the house and the performance of the Major Bowes type proved interesting and enjoyable. There is much talent hereabouts and amateur nights at the Gulf will bring it out.

There will be another amateur night Tuesday night of next week and the management invites entries. Contestants are asked to enter their act at the box office or by telephone. Three winners are picked by the audience (with applause) every Tuesday night. Winners will be eligible to compete for the cash prizes September 14.

"All you have to do," says the management "is to come up and sing, tap, play any musical instrument, do acrobatics, recite, tell jokes or anything in the line of entertainment you wish."

Come down and enjoy the fun, is the invitation from the management.

## Hotel Reed Cocktail Lounge Opened With Dance Tuesday Night

The cocktail lounge, Hotel Reed, was formally opened with a dance and reception Tuesday night and the event was marked with a large attendance.

The lounge is new and modernistic, everything brand new and up-to-date and seemingly nothing is lacking to make it complete.

The color scheme of decoration, as marked by the chairs and solid colors of var-tint for back covers, is rainbow and the scheme is faithfully carried out in the lounge and main dining room as well.

An orchestra discoursed music until after the mid-night hour and the affair was easily voted one of the most enjoyable of the season. Management of Hotel Reed is catering to every want and wish of the public and every effort is exerted to make the hotel strictly up to date and such as a summer and winter resort like Bay St. Louis must have.

The public demands it and Hotel Reed is going to meet the trade more than half way. It is a credit to Bay St. Louis and we are glad to note Hotel Reed is registering high with public favor.

## MOTHER EVELINE EXPRESSES THANKS THRU THIS MEDIUM

Unflagging Zeal, Untiring Energy and Unbounded Initiative Accomplishes Much

Mother Mary Eveline, Superior for the past four years at St. Joseph Academy, has been transferred to the Mother House in New Orleans. Her regime has witnessed many notable improvements. During her term of office the buildings have been improved both interiorly and exteriorly. The Course of Study has undergone complete revision to meet the requirements of the Southern Association. As a result, St. Joseph Academy is a Class A school. Due to her unflagging zeal, untiring energy, and unbounded initiative, the Boarding School Department has acquired a growing reputation.

As financial administrator, success attended all her undertakings. Principally by means of the May Festival and Carnival Ball she succeeded in decreasing the tremendous obligations which exist.

As a religious, her example was a source of edification to all with whom she came in contact. To the Mothers' Club, to all benefactors and friends, the Sea Coast Echo, as a medium extends in Mother Eveline's name her heartfelt and sincere appreciation for helping to make her term the success it was.

## NITE CLUB SPECIAL SCORES

"Miss New Orleans," Gracious Personality, Features Last Saturday's Program.

Another record-breaking crowd, attesting to the wide popularity of Uncle Charlie's Nite Club, Bay St. Louis, attended the dance and entertainment last Saturday evening.

High spot of the program for the evening was the appearance of Miss Gertrude "Rissie" Miller, who recently won the title of "Miss New Orleans," at a beauty pageant in that city for this year, and who will shortly leave for Atlantic City and Hollywood for a screen test. Miss Miller won at sight. Her gracious and winsome manner and beauty won instant favor and the tremendous applause that greeted her was well deserved.

Miss Miller appeared in evening gown and later in the bathing suit in which she won distinction and place and most probably lasting fame in the cinema world. Thus garbed she toured the place and greeted the enthusiastic audience on every side. It was a tremendous ovation and proved that Uncle Charlie is not only a host of hosts but is ever thoughtful catering to the pleasure of his patrons. ## S. J. INGRAM TALKS TO ROTARY

Reviews Major Improvements in Local School Activities—Tells of System.

Prof. S. J. Ingram, Superintendent of City schools was guest-speaker at the regular meeting of the Rotary Club Wednesday. Prof. Ingram is a member of the local club, representing the classification of "Education," and in Rotary circles his talk would be known as a "Vocational talk."

Better understanding of the individual vocation is one of the fundamental principles of the Rotary organization. Prof. Ingram reviewed the improvements that have been made in the school system during recent years. He emphasized the fact that qualifications for high school teachers had been raised. Instructors are required to prepare to teach certain subjects, and are not allowed to teach any other subject. This makes it very difficult to fill specific vacancies that occur in the school faculty at times. He stated that special effort was made in order to determine the intention or each individual student, as to the possibility of attending college, or securing immediate employment. With this information in hand school authorities were better able to assist pupils in selecting their high school work. This he considered one of the most important phases of school work.

This discussion by Prof. Ingram of "His Work" was very enlightening, and proved to be of much interest to Rotarians.

### A WORD OF PRECAUTION.

Local insurance agents call attention to property owners and others to fire hazards that may exist and prove disastrously during the winter. It is suggested that flues be examined, chimney bricks laid years ago in mortar be reset in cement and that no accumulation of dry weeds and other possible refuse be allowed to litter the back yard or remain piled high. Short stove pipe lengths are also dangerous and pipe collars might also be examined. Every year at the first chill of winter when fires are lighted, fires break out and property destroyed. A little precaution will save property and money.

## BISHOP JONES AND GULFSIDE.

**G**ULFSIDE at Waveland, Negro educational and recreational project for the South, even though main buildings were destroyed by fire, continues to attract heads of schools and churches from all sections.

This week witnessed the assembly of many prominent churchmen—bishops and others from various sections. Such visitors and laymen have flocked hither in numerous numbers and contributed their mite in the Bay-Waveland various channels.

Bishop R. E. Jones of the Methodist Episcopal church has accomplished telling work in this endeavor. Despite the onslaught of depression and repeated visitation by fire and other untoward incidents, he braves it all and continues the work that is planned to give the Negro sane training, both spiritual, educational and vocational as well. And to make him a good, right-thinking and worthy citizen who may take his place in the economic scheme of things.

It is hoped the buildings destroyed may be replaced in due time and the work for better citizenship may continue.

Bishop Jones says the Negro must work out his own salvation for that niche which he can fill in only one way. And that is by becoming a worker and living in pursuit of honest labor and honest endeavors.

Red Cross spent \$25,000,000 on the relief of victims of floods on the Ohio and Mississippi.

Advertising is the yeast which makes business rise. It will work in Bay St. Louis just as well as anywhere else in the world.

## COUNTRY GONE TAX MAD.

**A**FEDERAL sales tax in very probable. And it might become a reality at next session of Congress. The New Deal administration has succeeded so far in taxing everything in sight and much that is not in sight. For instance concealed taxes.

Sales tax method of mulcting the tax-payers and others is a shining mark. Every State in the Union is going in for it.

Golden California, rich in tourist trade, one of the wealthiest state per capita in the Union, has gone in for the sales tax. Texas, wealthiest of all States in minerals, oil, etc., is clamoring for such tax. And down the line.

Our government with its billions of debt and constantly growing deficit already has in operation many such taxes in capsule form, hidden under cover, such as luxury and so on, but the direct sales tax is yet to come.

Congressmen and senators are apprehensive of their constituency back home and this, so far, has acted as a sort of curb to such procedure. As inevitable as death, it is due to come.

The country has gone tax mad! Where will it stop?

The New Deal should be called the New Steal.

A fecetious rumor is to the effect Senator Bilbo is slated for a foreign ambassadorship. A Jackson daily newspaper suggests he be sent either to Spain or China.

One school teacher suggests that every American pupil be required to speak a foreign language perfectly. We think the same requirement should be made as to English.

## AN OVER-WORKED CUSTOM.

**T**HE appointment of a successor to Senator Black was a matter that became the business of Gov. Bibb Graves, of Alabama, who has seen fit to appoint his wife to the office, pending an election to name a permanent successor.

It is probably none of our business and certainly we would not criticize the Governor or suggest that Mrs. Graves is not well qualified to serve the State of Alabama as Senator. However, what with the custom of naming widows of senators and wives of governors to serve in offices made vacant by chance it might be just as well for somebody to rise up and say that the idea is not so hot, so far as the rest of the nation is concerned.

If every resident of Bay St. Louis would do something to beautify his or her property the effect upon the appearance of this community would be remarkable.

## AN ACTOR AND FOOLISH WOMEN.

**A** FAVORITE motion picture actor recently sailed for Europe. Police held back hundreds of feminine admirers but two managed to slip through the lines and had to be hauled from under the bed of the romantic type star.

So, what's the world coming to? Nothing new, it seems, because the world has always been peopled with men and women who have done the same thing under the influence of romance. Besides, the girls who slipped under his bed are quite likely to have been as nice as you want them to be but just determined to see their favorite actor.

The people who grumble about their church dues seem to have money enough to go to all the shows that come along and play the slot machines and pin horse races.

## HOW THE RAILROADS ARE MAKING A COMEBACK.

**F**ROM all sections of the country come the report that business of the railroads has accelerated to an appreciative point; that travel this summer has increased by far to an extent that exceeds that of many a season; and that the outlook is reassuring.

That the railroads are making a comeback is not to be denied. This has been accomplished by means that are varied.

Service has been vastly improved. Air-conditioned trains are now the rule rather than the exception; streamline trains are taking place of the kind that in time will become obsolete, and every endeavor making for quicker and better service is exerted to a point of success exceeding expectations.

It will be noted railroads are using newspaper advertising in generous measure. The more advertising the more business.

Long haul business this summer has added to railroad income. Never have people traveled more to Mexico and California than this year. Railroads have a whole lot of improvement and service to advertise and how well and liberally they are doing this is best attested to by a glance at the advertising in newspapers. Railroads know the value of advertising; they know good medium and what is the best.

We do not hear railroads advertised over radio. We do not see the message of their service they have to offer placarded on billboards, telephone and telegraph poles; neither in street cars or on moving picture theater screens. They use principally one and the only medium—the newspaper. That of the printed word. The kind that remains in print and is read over and over by the biggest reading public of the world, the kind that read newspapers.

Our own local railroad is not slow to use the newspaper. Every issue of this newspaper carries a new advertisement. The L. & N. has something to advertise and sell to the public by the medium of print.

Merchants and others might profit by what the railroads are doing.

## HIGHWAYS AND BYWAYS.

**W**HILE not officially opened the new Old Spanish Trail shortcut in Hancock county, connecting Pearl River bridge with the highway slightly west of Brown's vineyard, where it will again shoot across the woods at that point to the intersection of Ulman and Dunbar avenues, is used by many motorists. The roadway has been built up to the required level, side sodded and topped with a heavy layer of clay soil. With the dry weather it offers a splendid surface and motorists are traveling over this route with not only ease and comfort but to advantage that means for saving time.

Mississippi Highway department has busied itself to an extent that means for early completion, realizing well how much it will mean to the many who travel between New Orleans and the Coast.

Hardsurfacing will begin in due time and the roadway will become an integral part of the thru highway between New Orleans and Mobile.

It is also interesting to note the highway authorities, Gov. White concurring, will soon begin work of doubling the boulevard along the Harrison county line along the Coast,—that is, between Henderson Point and Biloxi. A boulevard that is necessary with increased travel. The present highway along the coastal shores is not only narrow and inadequate but in questionable condition. And it might be well, if the funds permit, to rebuild or resurface much of the beach road.

Mississippi Gulf Coast is entitled to a generous share from the State Highway department. This section is an attraction to bring motorists to the State. Mississippi has no greater natural attraction. With the completion of the Memphis-Gulfport highway connecting Chicago and St. Louis there should be an influx of winter tourists without precedent anywhere.

This Gulf Coast boulevard, with increased shortcut building, should receive major consideration to both invite the traveling trade and as well take care of it.

## THRIVING INDUSTRY.

**M**ISSISSIPPI Coast's chief industry is seafood packing. And just now canneries along the Coast are operating daily to capacity.

Shrimp are plentiful. This is an unusual season. And we are informed by knowing ones that the oyster supply will be plentiful regardless of the fresh water from the spillway during the spring. On the contrary, it is printed the oyster thrives better in water not too salty nor too fresh and the admixture of the early part of the year will prove to advantage.

Local canneries, like others of the Coast, provide work for the surplus labor hereabouts. Weekly payrolls are of proportion hardly dreamed of. Accordingly, the flow of new money into local channels continues. Merchants and other business men have felt immediate benefit.

Minimum payroll for Bay St. Louis is based at \$1500 per week. Coast canneries should be not only encouraged but given every co-operation possible rather than harassed with many complaints that in the main are minor. We have several such letters on our desk. The city council has received similar objections. But the season is short, the poor vastly benefitted which enables them and their children to be fed and better clothed.

Shrimp packing will continue for a short while. Soon, after cold weather, the oyster season will open in full blast. While Bay St. Louis and vicinity is not an industrial center and is not advertised nor featured as such the community would be bereft of much if it were not for the packing industry.

The canneries, like other corporations and firms are heavy tax payers and the individual payer of public stipend is thus eased considerably.

Many a hard-working parent is sacrificing greatly in order to send his boy or girl to college, where the child will probably throw away time and money. Better put that boy of yours to work. It is not fair to him to do otherwise.

### HOUNDS OF WASTE

**G**ALLOPING Hounds of Waste" is the title that has been applied to members of Congress in a speech before that body recently delivered by Congressman Harold Knutson of Minnesota. He called attention to the fact that in four years the members of Congress had mailed, for which the taxpayers paid \$217,000,000 literature which required 7000 railroad cars to transport the mail.

### A FINE WAY OF WASTING FEDERAL MONEY.

**P**LANs are being made for taking the "unemployment census" authorized by Congress, and when it is finished it will be worthless—so much time needed for compilation of the figures that they will be out of date and in no way present a picture of conditions then existing. However, it is a fine way of wasting Federal money.

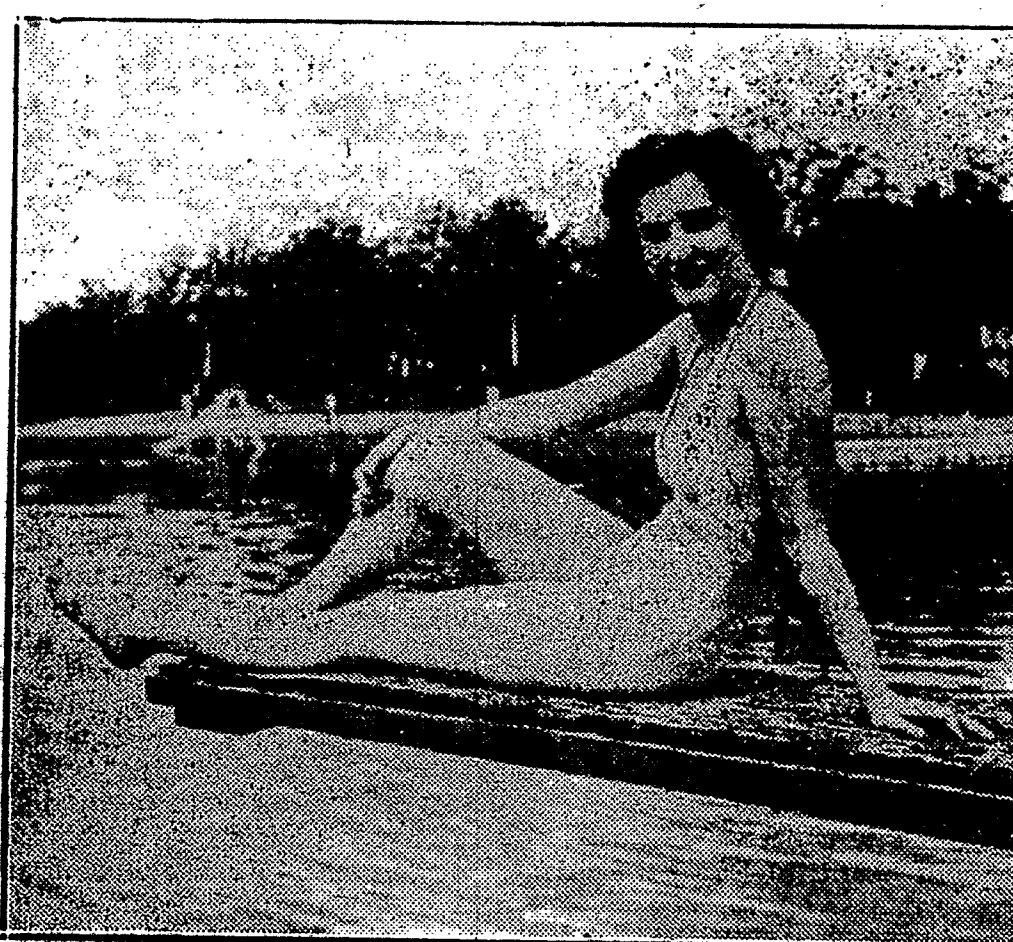

### TRUE AS GOSPEL.

Did it ever occur to you that the appointed or employed public official has much easier sailing than elected officials? The former have no campaign expenses to pay. The latter must sell themselves to the voters at regular intervals. They must get out and grunt and sweat in hot weather interviewing voters and making speeches. Also, they are sure to make personal enemies, no matter how good they are at sail-trimming, and it is almost certain they will meet with a lot of splendor and misrepresentation. It's not the easy life it sometimes seems.

He further stated that \$260,000,000 more of the taxpayers money had been spent for traveling alone in the past three years. This exceeded by far the cost of sending the entire American expeditionary forces to France during the World War. It also exceeded by \$89,000,000 the cost of the travel expenses for the three previous years by members of Congress.

That four hundred million dollars would have made plenty of public improvements or eased up a little on the taxpayers. We can understand now why people like to be a member of Congress.

Leading the "world's longest parade" when it sets out on September 10 to join the "world's largest parade" in New York City will be Miss Elaine Russell, pretty auburn-haired lass of Oxford, Miss., whom Legionnaires elected "Miss American Beauty" at their last nationwide beauty contest. The caravan will consist of

five floats advertising the historical, recreational, agricultural and industrial highlights of the state's progress. Financed by contributions and statewide public subscription, the floats will carry the story of a growing state over a 3400-mile route that includes many of the nation's major cities.

## POOR LITTLE FISH HAVE NO CHANCE WITH NOVEL HOOK

Chicago, Aug. 30.—The poor fish, fooled all these years by a hook in worm's clothing, is in for more fatal fooling, inventors of a bait-saving fish catcher.

W. L. Williams and Harry R. Reynolds said their simple device will:

1. Snare fish and prevent free meals of fat, wiggly worms.
2. Sound the death knell of those boring tales of this one this long that got away, because the catcher is foolproof.
3. Let the master of a fishing family actually fish instead of spending the day fastening bait to hooks for ma and the kids.
4. Reduce fishing to the not-too-fine art of letting down the line and hauling up the fish, if there are any at all to be caught.

The inventors explain the device, which they call the "Zaak Walton," is a simple trigger arrangement operated by rubber bands and attached to an ordinary pole.

### TWILIGHT THOUGHTS.

The quickly fading light aglow, Just as the sun goes down; Minutes before the shadows grow, Spreading on hill and town.

It is the awful stillness felt, When daylight flits from sight; The pains and sorrows that will melt, To fall in heart of night.

Then bury we our hopes and dreams, Half living yet not dead; Sweet memories caught in twilight gleams, To hover near our bed.

### BELOVED HAUNTS

The shrines, the woods, the birds and trees, In sweet harmony blest; The butterflies and drone of bees, In quest of honey bent.

The little stream gurgling along, With music on its way; The sweet, fairy pictures in song, Making all bright the day.

How oft I tramped with wond'ring feet,

Through these green bowers soft; I still hear patting leaves like feet, And birds praising aloft.

Did not the birds sing through the day, In threnody of love; Did not flowers on pathways stray, Reflecting God above.

So well loved in this bower fair, In nature's charm bedight; There's witchery upon the air, With beauty smiling bright.

### TRIPS

Members of Congress will go places on a variety of missions before the next session begins in January and at the expense of the government, which has appropriated more than \$200,000 to cover the costs of the expeditions. While some of these trips are pleasant junkets for Congressmen, readers should not lose sight of the fact that many of them are meritorious and that it is often important for legislators to visit other places in order to intelligently vote upon vital matters.

The fifth of the navy's 10,000-ton light cruisers was launched last week at the Brooklyn navy yard and named for the city of Honolulu. Four additional cruisers of the same class will be launched within a year.

## Marshall, Anne Shirley In Sparkling Comedy, "Make Way For Lady"

A modern romance along brand new lines, with a wealth of comedy situations and a brilliant cast of film favorites, is offered in "Make Way for a Lady," RKO radio's new starring vehicle for Herbert Marshall and Anne Shirley, which comes to the Gulf Theater, Tuesday and Wednesday of next week.

The story, based on "Daddy and I," the novel by Elizabeth Jordan, deals with a wealthy widower and his romantic daughter and the latter's efforts to find her father a suitable wife. With its up-to-date theme and its setting in a fashionable suburb of New York City, the picture marks a distinct departure in Miss Shirley's type of portrayal, as well as in teaming her for the first time with a co-star of Herbert Marshall's popularity.

### SHIPS

The Maritime Commission has \$115,000,000 authorized for the construction of new merchant ships and will proceed to carry out plans to provide this country with adequate auxiliary fleets. Chairman John P. Kennedy is expected to safeguard the rights of the public and to see that the new ship-building activity is not the occasion for a repetition of some of the previous deals between the government and the builders and operators of ships.

Navy ships will evacuate American citizens from China only in case of a major emergency.

## Sun's Test Well In Lamar County Hits Anhydrite

Work was halted at the Sun Oil Company's Tally No. 4 well in Lamar county, 16 miles southwest of Hattiesburg on Highway 24. Orders to abandon the well came after the drill had bored about 300 feet in anhydrite a granitic formation.

The hole was terminated at 6588 feet, the deepest of any of the four test wells drilled in this area by the Sun company.

Formations in the Tally well puzzled geologists and other oil field experts. The anhydrite showed up beneath structures of oil sand which at one point extended for 152 feet.

This oil sand was the first of its kind ever discovered in Mississippi.

### WHY?

Why is it that birds do not tire, Or singing all the day?  
Why does the Spring set hearts afire, And children love to play?

Why do we love flower and tree, In all their radiant dress;  
Why pause at nature's mystery, Whose beauty God has blessed?

Why do we think, why plan and dream, When hearts and brains are young,  
Why do we race across life's stream, With flame upon our tongue?

Ah, why, yes, always ask we why, For everything that's done,  
It is the old, eternal cry, Trails lost beyond the sun!

**THREE MARX BROS.  
PRESENTS A DAY OF  
LAUGHS IN PICTURE**

**"A Day At The Races"—  
Groucho, Harpo and Chico  
Keep Audiences in  
Uproar of Mirth.**

A horse-doctor pretending to be a specialist on "double blood pressure," a jockey who spurs his horse to win by showing the nag a picture of the man the horse doesn't like, and a vendor of incredibly bad racing tips will have you bent double in laughter when you see "A Day at the Races," at the A. & G. Theater Sunday and Monday, Sept. 5-6, with the three Marx Brothers portraying the funniest roles of their entire careers in a picture which is an uproarious guffaw from beginning to end.

Groucho, Marx plays the horse doctor, Harpo the jockey and Chico the vendor of bad tips. Assisting them in some of the most amusing situations ever conceived for a motion picture are Maureen O'Sullivan, the talented singing juvenile, Allan Jones, the stately, Margaret Dumont whose dignity is constantly being picked by one or all three Marxes, Esther Muir, who undergoes terrific "punishment" from the comedians, Leonard Ceely, Douglass Dumbrille and others. The hand-picked cast could not have been improved upon.

Even the maddest of the Marxian antics usually have a straightforward plot to fall back on, and "A Day at the Races" is no exception to the rule. In this case the complications ensue when creditors attempt to take over a sanitarium owned by Maureen O'Sullivan. Groucho, Harp and Chico come to her rescue, and their attempts to run the sanitarium and, in conclusion, to raise enough cash to pay off the mortgage by winning a horse race, provide the groundwork for a madcap action and dialogue which

The scene in which the lunatical Marxes paste Esther Muir to the wall behind a barrage of wallpaper, the creamfleckingly funny medical examination in which Groucho attempts to explain to Margaret Dumont why she should swallow a pill the size of her hen's egg, the episode in which Groucho tries every expedient to deny the fact that he is a veterinarian—these and countless others stand out as incidents actually too funny to describe. They must be seen to be appreciated.

The picture, said to have been more than a year in the making, gives every effort of painstaking care in making it a gala entertainment holiday for young and old alike. Each of the credits must go to Sam Wood, the adroit director of the late Marx Brothers hit, "Night at the Opera," who once again comes through with an admirable job.

August 11, 1937.

Gentlemen of the Board of Supervisors:

I make a motion that the Board of Supervisors reject all bills for roads and bridge that has been made since April 5th, 1937. And all bills that the county made prior to that time should be passed and would have voted for same had they been separated.

First because some of the bills were made after 1st of April as in

emergency act and was purchased

the contract was let for the purchase of materials for roads and bridges of Hancock County. In the next meeting of the Board of Supervisors or the last days of the February meeting an order was passed that no material would be bought in Hancock County except it be legally advertised and bids accepted. Some

These bills were purchased before the bills were accepted and in our opinion they are not legal bills and therefore should not be allowed. And that the bills for the tenance of roads and bridges has been incurred under the authority of the Board of Supervisors and is therefore legal and should not be voided if said bills are included in said one thousand dollars that Board is now asking the tax payers to pay.

It is my duty as clerk to levy that which is fixed by the present Ordinance for roads and bridges and did not bring us over \$36,000.00.

All taxes are collected and approximately \$13,000.00 that amount goes to Bay St. Louis, leaving a balance of approximately \$40,000 for which a levy will be placed on the taxpayers Hancock County.

It is the policy of this motion be made of record on the Minutes of Board of Supervisors of Hancock County and that each member furnished a certified copy if they desire to ask the Board of Supervisors of the Board of Supervisors president thereof give me a return of this copy of my motion.

Respectively Submitted,

T. E. Kellar.

## MRS. ADAM LORCH, SR., DIES AT NEW ORLEANS MONDAY AFTERNOON

Was Well-Known Summer Resident and Property Owner for Over Thirty Years.

Mrs. Adam Lorch, Sr., native of New Orleans, in her 73rd year, died at Touro Infirmary, New Orleans, at 2:30 o'clock Monday afternoon, August 30, 1937.

While it was generally known this estimable lady had been subject to heart ailment for a number of years, and particularly had not been so well this season as to prelude her occupying the family summer villa in Bay St. Louis, the news of the passing away came unexpectedly.

Mrs. Lorch was doing well. However, an acute ailment suddenly developed. She was rushed to Touro Infirmary Monday morning and that afternoon passed on.

She was the mother of Misses Carrie and Irwina and Adam Lorch, Jr. Before her marriage she was Miss Rosina K. Hagelberger and is survived by a sister, Miss Carrie Hagelberger, of New Orleans.

The funeral largely attended took place Tuesday afternoon from the late residence at 2323 Napoleon avenue, with interment in Metairie cemetery.

Up to recent years Mrs. Lorch was active in charity and church work and no project of this kind was without her aid. She was an indefatigable worker in these channels and gave much of her time and worldly goods to the causes she so successfully and untiringly espoused.

Mrs. Lorch was prominently known for many years as a clubwoman. She was member of the Era Club and the New Orleans Women's Club. She was always in the forefront as a worker in the women's club, realizing that in organization more could be accomplished than singly.

She was ever a worker in the cause of welfare and child care work, and many institutions of the big city have been vastly benefited by her activity in this channel. She never took credit for her tremendous accomplishment, unassuming and ever willing to do.

She was a warm friend of Bay St. Louis. Shortly after 1900, then a visitor to the Gulf Coast each summer, she purchased the Lorch villa, spacious and imposing home of ante bellum days belonging to the Carroll estate from Mrs. Thomas, a daughter of the Carrolls. This home was entirely renovated and gave evidence of her splendid interpretive and executive mind. The home is a credit today to the beach front.

Mrs. Lorch's passing is an occasion for wide-spread sorrow. She was well and widely known and her memory will long live.

## PRICE-FIXING

Under a rider attached to a District of Columbia mill the Tydings-Miller Retail Price and Maintenance measure has been put through, enabling manufacturers of trade-marked goods to set resale prices in forty-two States which have fair-trade laws. A bitter battle is expected to develop between national and private brands, with little likelihood that the public will be harmed by unwarranted prices.

Congress adjourns sine die after voting housing bill; most Roosevelt measures fail of passage.

## WHITHER THE WINDS?

Whither the winds that sweetly blow, Gone to another land; Whither their song in evening glow, Caught by some spirit band.

What is the message that they bring, In Sunshine or in storm; Who knows the melodies they sing, In accents wild or warm?

Does Love await the wind's far call, Across mountains or sea; What are the dreams they must let fall, In strangest mystery?

The winds their secrets always keep, But we guess what they say; The winds, sweet winds, will guard our sleep, And kiss our cares away.
